

RENOVATION APPLICATION FORM

Thank you

Thank you for contacting of our office regarding your proposed renovations. Renovating a unit is an exciting step in maximising the enjoyment and value of your property.

Your lot

Owning a strata lot means that you own the “air-space” within the common boundaries of your property i.e. within the inner surface of the floor, common walls, and ceiling of your lot.

It is acknowledged that renovations will likely impact on some areas of common property. This document sets out to assist all stakeholders in this process to ensure your renovation application is;

1. Detailed; and
2. Allows your strata managing agent to best guide the process to ensure the best interests of the Owners Corporation and the individual lot owner are protected

Categories of renovations as defined under legislation

Legislation defines renovations into three main categories, namely;

Cosmetic

Cosmetic works include;

- Installing / replacing hooks, nails, screws for hanging items e.g. pictures on walls
- Painting
- Filing minor holes / cracks in internal walls
- Laying carpet
- Installing / replacing build-in wardrobes
- Installing / replacing blinds / curtains

Cosmetic works can proceed without the approval of the owners corporation. Owners progressing cosmetic works must ensure that any damage caused to the common property, as a result of the works, is repaired by the owner.

Minor

Minor works include;

- Renovating a kitchen
- Changing recessed light fittings
- Installing / replacing wood or other hard floors
- Installing / replacing wiring or cabling or power or access points
- Reconfiguring walls (internal)

Minor works must include a written notice detailing;

1. The works (including copies of any plans)
2. The duration and times of proposed works
3. Details (including qualifications) of person to be engaged to do the works
4. What arrangements will be in place to manage the disposal of debris & rubbish

Minor works can proceed following consent via approval of the owners corporation at a general meeting. As approval is required in a general meeting, the applicant will also need to ensure a properly drafted motion is provided for inclusion within the general meeting. Approval is sought via an ordinary resolution i.e. a simple majority of owners represented at the meeting need to vote in favour of the works.

The owners corporation may impose reasonable conditions prior to approval of minor works.

Non-minor (which we can term "Major")

Major works typically encapsulate works that fall outside the scope of "cosmetic" and "minor" works i.e. works that directly impact the common property. As such works impact the common property, part of the approval process will include the need for an undertaking of the proposer of works to accept the responsibility for any negative impact their works may have on the common property and the responsibility for any ongoing maintenance of their works. Such arrangements are typically achieved via a new "by-law" being proposed to the owners corporation. Consideration of works, and the by-law, are via a "special resolution" put to the owners corporation at a general meeting i.e. no more than 25% of owners represented at the meeting can vote against the motion for it to pass.
